

STEELWEAVE™ METAL MESH GRILLE

Fox Theatre - Reading, PA

“One of the most eye catching enhancements that was made during the remodel was the cocktail bar,” explained Donald Fox. He also added that, “It was designed and built as a focal point of the theater’s lobby”.

Fox Theatres

Over the past 3 years, Fox Theatres enhanced their existing location in Wyomissing, PA, to meet the growing needs of their business. In part of doing so, the theatre had a SteelWeave Metal mesh grille installed in the bar area. In 2017, a full kitchen and a cocktail bar was added to give moviegoers a place to enjoy a cocktail, dine, and relax throughout their movie experience.

The theater’s main concern was to ensure that by securing the alcohol, they did not compromise the look of the bar or the visibility of the available products.

We could not be happier with the look and function of our CornellCookson SteelWeave Metal Mesh Grille and custom sliding panel
